"Rescue Me"

BRIDGE:

Can you hear me calling in the night, in the middle of  
my dreams?  
Although my heart is still alive you stole a part of me.  
You left me trapped in this unfamiliar world; I will  
always be your girl  
Although you're in another place, your memory never  
fades

CHORUS:

Sometimes it gets so lonely, without your arms to hold  
me, I need you to rescue me, rescue me. I broke your  
heart, you broke mine, wish I could turn back the time, I  
need you to rescue me, rescue me.

VERSE:

Should have been by your side, held your hand kissed  
you goodbye. So much drama, so much pain without  
you I'm going insane. Don't know what it is you've got  
until you find that it's gone. Think you are going to be  
alright until life proves you wrong.

REPEAT BRIDGE & CHORUS

VERSE:

Something's get lost, something's we throw away but  
your memory keeps haunting me everyday. Can you  
see my despair? Are you looking down from up there? I  
raise my head to the sky, hope heaven hears my lullaby

REPEAT BRIDGE & CHORUS
