Another cloudy day, another sleepless night  
An empty photograph is all that's left behind  
The phone rings at 3 am, a whisper on the other end  
Reliving the pain once again  
One last moment  
One last try

The passion builds inside you, the magic folds around  
you  
Release is just a moment away  
Looking out from the inside, a heart can break like  
glass  
A child gazes up in wonder  
She will run to forgive you

The scene escapes me, from inside the mirror  
Illusion, come take me  
And open the door that they deny  
And step inside

Come to the mirror with me  
A deep place, a deep breath  
More than words could ever say  
A deep place, a deep sigh  
Nowhere to look but inside  
Nowhere to run except to me

The scene escapes me, from inside the mirror  
Illusion, come take me  
And open the door that they deny

Step inside and show the world who you are  
No more anguish  
No more fear  
Tonight your reflection lets you smile again

The scene escapes me, from inside the mirror  
Illusion, come take me  
And open the door that they deny  
Sometimes I see shadows of a face from inside the  
mirror

Illusion it scares me  
And shows me a life I can't deny  
There's nowhere to run from inside the mirror  
Illusion, come take me  
And open the door that they deny  
And step inside
