I have seen what's now  
I'm waiting for the fall  
Never looking past, show me something  
To focus my eyes, I want to survive  
The trials of my life  
I'm taking control of the gift I have  
The gift of life that is  
It's mine to fulfill  
Open up to the faith in you  
The power of yourself  
You are in control  
To take me to a place

I have found a paradise  
I want you to see  
What our world can be

Show me what can be  
What I can see if I believe

Now that's what can be  
I'll show you the way  
If you trust me  
And with you and with me  
I'll make your dreams come true  
The faith you find in you  
Use your heart and soul  
And learn the lesson  
Of what will bring me there  
Time has changed for me  
I need to succeed  
And bring a world of  
Change inside myself  
It's not hard to do when belief is there  
Trust me when I say

Bring your world a new  
Chance to be alive  
Reborn, renewed

Show me what can be

What I can see if I believe  
And my dreams will come true

Look inside, see yourself  
See the reflections of your soul  
Pull from the inside, your inner light  
Harmonize with you and your world  
And get ready to explode

I hold in my hand a burning need  
To find myself and plant the seed  
It glows inside like a raging fire  
I have it in me, I have the desire  
I see what I need, I found my plan  
It's in my sights, I know I can  
Forget your past, put it behind you  
Your future lies inside of you

Show me what can be  
What I can see if I believe  
It's in my sight, it's what is right  
And my dreams will come true  
The power that I feel I know is real  
If I believe  
I need to show you what I know  
That the future is now
