You & I

We are the same we win and lose in the game of life...

You & I

We seek the truth looking for the signs in the universe...

In this journey... We are companions struggling through  
life towards our

Way...

CHOURS

Why should a mother cry...

Why should a wife see her husband die...

Ooh tell me why do we have to fight...

Why don't we try just you and I...

Ooh why don't we try...

You & I

We love our land protect our home against any harm...

You & I

Dream of a day when everybody will live in peace...

In this journey... We are companions struggling through  
life towards our

Way...

CHOURS

Why should a mother cry...

Why should a wife see her husband die...

Ooh tell me why do we have to fight...

Why don't we try just you and I...

Ooh why don't we try...

Throughout history so many senseless wars

Yet we never learn, we're building borders around us

But we still have a chance to heal our wounded world

Let's get rid of hatred and see each other as we really  
are

Before it's too late, who knows what tomorrow may bring

But without justice there's no way that peace can exist

## CHOURS

Why should a mother cry...  
Why should a wife see her husband die...  
Oooh tell me why do we have to fight...  
Why don't we try just you and I...

Ooh can u tell me why should a mother cry...  
Why should a wife see her husband die...  
Ooooh tell me why do we have to fight...  
Why don't we try just you and I...

Ooh can u tell me why should a mother cry...  
Why should a wife see her husband die...  
Ooooh tell me why do we have to fight...  
Why don't we try just you and I...  
Why don't we try...
