I'm callin' from a pay phone, I was headin' out of town  
I really meant to leave this time but I guess I'm havin'  
doubts  
It's hard for me to walk away from all we could've had  
So I'm callin' just to tell you where I'm at

I'm at the corner of walk and don't walk and I can't  
make up my mind  
One way leads me back to you and one leaves you  
behind  
I'm standin' at the crossroads and I'm really in some  
pain  
At the corner of walk and don't walk, darlin' and the  
light's about to change

I'm hopin' that you'll tell me to turn my car around  
That you never meant to hurt me and you'll make  
things right somehow  
But the phone just keeps on ringin' and though my  
heart's had enough  
I just can't bring myself to hang it up

I'm at the corner of walk and don't walk and I can't  
make up my mind  
One way leads me back to you and one leaves you  
behind  
I'm standin' at the crossroads and I'm really in some  
pain  
At the corner of walk and don't walk, darlin' and the  
light's about to change  
At the corner of walk and don't walk, darlin' and the  
light's about to change
