"I'm Longing for Spring"

Visit "[I'm Longing for Spring](#)" on MotoLyrics.com

They say that spring is coming
They tell me winter is through
I listen for the birds now
And dream of nightingales too
Yet still a chill comes over me
When will my heart feel like singing?
I'm longing for the morning
When winter will give way to spring

They say that spring is coming
They tell me winter is through
The river's high and running
The snow and ice are gone too
Though clouds today are winter gray
Could grass be green? Am I dreaming?
I'm longing for the morning
When winter will give way to spring

They say that spring is coming
They tell me winter is through
This brand new song I'm humming
Sweet love I'm dreaming of too
Yet who could say that spring is here?
It looks like snow late this evening
I'm longing for the morning
When winter will give way to spring
