Near the river in the spring
Beautiful is the sight
Golden ripples glistening
In the April light
Have you seen the color green
That only spring can bring?
Have you heard a hummingbird
When it starts to sing?

Near the river in the spring
Beautiful is the dawn
Cherry trees are blossoming
Lovers on the lawn
Have you seen the willow tree
Whose branches hang so low
Rustling in the shadows there
Of love's afterglow?

Near the river in the spring
Beautiful is the night
Stars are lighting up the sky
A crescent moon hangs bright
Nature sings and gently brings
This glorious rebirth
Near the river in the spring
Heaven here on earth
