If you have time dear friend of mine  
Come walk along the shore  
Tomorrow I'll be waiting there  
Remembering once more  
I listen to the wind you see  
Or watch the clouds roll over me  
So many things come back to me  
As I walk along the shore

If you have time dear friend of mine  
Come walk along the shore  
Just yesterday I found a way  
To remember even more  
I watch the waves come rolling in  
The moon and stars come out again  
And I remember you my friend  
As I walk along the shore

I watch the waves come rolling in  
The moon and stars come out again  
And I remember you my friend  
As I walk along the shore
