She was only 17
little did she know she was my first love
Something about the way that she smiled
drove this young boys ole heart wild

[Chorus]

Oh Crystal, where are you
Oh girl, where have you gone
Just like the crystals in the night sky
I see them every time in Crystals eyes

It started out as a friendship
Then it grew to something more
All of my life, I've never felt this kind of magic
When I turned my head, you were out the door

[Chorus]

Oh Crystal, where are you
Oh girl, where have you gone
Just like the crystals in the night sky
I see them every time in Crystals eyes

[Bridge]

Girl why can't we have what we had back then
If we'd give it one more try
We would have known, what might have been
Just as long as I am in your memory
You will live in my heart for all eternity

[Chorus]

Oh Crystal, where are you
Oh girl, where have you gone
Just like the crystals in the night sky
I see them every time in Crystals eyes

She moved away up to Memphis

She left me here all alone
So I thought I would give her a call
And to no surprise there's no-one home

[Chorus]

Oh Crystal, where are you
Oh girl, where have you gone
Just like the crystals in the night sky
I see them every time in Crystals eyes
