Can you keep a secret? It's my greatest weakness
I never really know what's impossible
I've fucked up before
I can't really say that I won't fuck up anymore
(I don't really have a choice)
It doesn't matter anyway, free will will be the end of me
It will be the end of me
The feeling's nameless, it changes me while I sleep
I've fucked up before
I can't really say that I won't fuck up anymore
(I don't really have a choice)
But it doesn't matter anyway
Free will will be the end of me
It will be the end of me
Can you keep a secret? It's my greatest weakness
I never learned how to be responsible
I've fucked up before
I can't really say that I won't fuck up anymore
(I don't really have a choice)
But it doesn't matter anyway
Free will will be the end of me
It will be the end of me
