Do you feel that? Your body's chaking
And that fire in your eyes
Makes that look you give burn me up on the inside
You are the perfect breed
Your eyes are the color green
I won't let you down if you will let me in

Take take what you gave away
While we set it off
Turn on the lights let's celebrate
So come take what you gave away

Does it feel like the room is spinning?
You take too much time to think
But just don't think that I will be here when you wake up

I'll catch you if... I'll catch you quick
If you will let me

Come with me but first put out that cigarette
Dance with me just say the word my little pet
...Dance with me
