I now own your f_cking breathing - I now own your
f_cking thoughts
I will never hesitate - To create your feeble fate
Bow down - To all your fears and all your anxiety
Bow down - To all your fears and all your faith in me
Kneel down upon your knees - Now open wide and let
me in

Worship your evil - Worship your god
Worship your leader - Worship your lord
Worship your evil - Worship your god
Worship your leader - Worship your lord

Bow down - To all your fears and all your anxiety
Bow down - To all your fears and all your faith in me

Kneel down upon your knees - Now open wide and let
me in
I now own your f_cking breathing - I now own your
f_cking thoughts
I will never hesitate - To create your feeble fate

Bow down - To all your fears and all your anxiety
Bow down - To all your fears and all your faith in me

Kneel down upon your knees - Now open wide and let
me in
