"Interrogation Leash"

Visit "[Interrogation Leash](#)" on MotoLyrics.com

Cold insitions, the vile conditions
Canine infliction for your disease

Tortured civilians, blatant maltreatment
Cruelty for suspected insurgency

Dead victims, Interrogation Leash for you
False witness, Interrogation Leash for me
Forced naked, Interrogation Leash for you
Portray sickness, come wake up and smell the fear

How can you turn your face to me
When you know these walls are screaming
How can you hide your guilt from me
When you know these walls are bleeding

No proceedings, the wounds unhealing
Consolation unheard of, a deed obscene

Tortured civilians, blatant maltreatment
Cruelty for unproven insurgency

Dead victims, Interrogation Leash for you
False witness, Interrogation Leash for me
Forced naked, Interrogation Leash for you
Portray sickness, come wake up and smell the fear

How can you turn your face to me
When you know these walls are screaming
How can you hide your guilt from me
When you know these walls are bleeding
