So is the holiday again
This year I only put one thing on my list
Check it out!

Last year I wanted a new cell phone and flash shoes
and some gloves
A... screen TV, couple DVD's and a wallet for my door
So I got it all and it was thankful for it something wasn't
right
'Cause you weren't there and you're more important
I need you by my side, here we go again it's another
year
I don't wanna do it without you here
I try it before it was crystal clear, this crystal year, this
crystal year
And even if you gave me the whole wide world
And want me to say without my girl, no want me to say
without my girl
Without my girl, without my girl

Chorus:
I won't even make a list because you're the greatest
gift
And that's all I want for Christmas, all I want for
Christmas
All my friends and family underneath the Christmas
tree
And that's all I want for Christmas, all I want for
Christmas

I remember back back back in the day when
Mom and dad didn't have the cash for the things that
We put on the list but we was glad anyway cause

Used to have each other that's why happiness lays
Hey we make it slays out the trash snow ball fight
You'd better watch it I'm a bad man
And I got on the started chillin with the homie sippin
with
I'm hopin my mama don't... we just kick it
Is the time of year couldn't ask for nothing mor e

Cause right here is frigid outside but is warm in here
Don't kick it all night don't pull up the chill

Here we go again it's another year
Here we go again kick it up in here
And though we gotta keep it 'cause it's dough in here
Because you're here, because you're here

Chorus:

I won't even make a list because you're the greatest
gift

And that's all I want for Christmas, all I want for
Christmas

All my friends and family underneath the Christmas
tree

And that's all I want for Christmas, all I want for
Christmas

No flakes fall outside my window
... place burns grind
I could have one hundred presents
But if you aint' here it ain't just right

[2 x Chorus:]
