What if there's another world
Circling a distant star
And on this planet lives a girl
Won't you tell me where you are?

I'm in deep space
I think I'm fallin'
And I feel like, I'm a million miles from home

I'm in deep space
Can you hear me callin'?
'Cos I'm searchin' for the light to save my soul
Is there anybody there that can pull me out of this black
hole?
(Is there anybody there that can pull me out of this
black hole?)

From the past right to the present
I've been waiting for a sign
For an angel sent from heaven
A rocket in this starless sky

I'm in deep space
I think I'm fallin'
And I feel like, I'm a million miles from home

I'm in deep space
Can you hear me callin'?
'Cos I'm searchin' for the light to save my soul
Is there anybody there that can pull me out of this black
hole?

Well, I built myself a capsule
And I've drifted days and nights
When I look into the darkness
There's a vacuum in my life

I'm in deep space,
I think I'm fallin'
And I feel like I'm a million miles from home

I'm in deep space

Can you hear me callin'?
'Cos I'm searchin' for the light to save my soul
Is there anybody there that can pull me out of this deep
space?

I'm in deep space, I'm in deep space
Is there anybody there that can pull me out of this deep
space?

I'm in deep space, I'm in deep space
Is there anybody there that can pull me out of this deep
space?
