If you dont want me
Throw me away
If its important to you baby then beg me to stay
Stuck in the in-between
You never say what you mean
You go through the motions
And tell me you care
But when i'm looking in your eyes
I see nobody there
You've got your moment taken now
It will not come again
If you love me
Just love me
You make it complicated
Talkin around the truth
If you love me
Just love me
It really is that easy
But you gotta choose
Gave you my body
I gave you my soul
I gave you a shock but you can't feel
And now i'm watching you fold
I need you to be straight with me
We're way beyond pretend
If you love me
Just love me
You make it complicated
Talkin around the truth
If you love me
Just love me
It really is that easy
But you gotta choose
Except for love with strangers
With so much left unsaid
And fear just keeps you lonely
And you're trapped inside your head
So you fantasize and don't realize
You're gonna lose it all again
If you love me
Just love me
You make it complicated

Talkin around the truth
If you love me
Just love me
It really is that easy
oooohh
If you love me
Just love me
You make it complicated
If you love me
Just love me
It really is that easy
(You make it complicated)
Love me
Just love me (better love me)
You make it so hard
But it's so easy baby
