...2 switch I gotta roll out with another bitch
Silla backa pea, her best friend sucking in
Hoes start taking off their clothes when the budget hit
In the time you chasing more paper the hater come
with it
Prime time dimes wanna come with me and face die
Ride so big I need a license like I truck drive
Niggers talk about it but I play a whole different game
Females fantasize about stunting in my chevy thang
Positive money in my pocket but you pussy
Haters... to my name cause they can't overlook me
Something like they swallow it, some like it did they
face
... me, girls pop their pussy back on back my place
I'm chasing air but it's too many beats call on my cell
Go kilo so heavy that it broke the scale
Loud glass... locks
Say you making nice show me motherfucker pull 'em
out

... minutes hours go to the oh,... dollar, oh... dollar
Oh oh,... dollar
Hoping and break the seamen, hoping and break the
seamen
Hoping and break the seamen, hoping and break the
seamen
... minutes hours go to the oh,... dollar, oh... dollar
Oh oh,... dollar
Hoping and break the seamen, hoping and break the
seamen
Hoping and break the seamen, hoping and break the
seamen
