Visit "[Leave Me High](#)" on [MotoLyrics.com](https://MotoLyrics.com)

leave me high  
leave me looking  
leave me low  
leave me warm  
no love can fulfil  
like this love that you give  
leave me high  
leave me looking  
over mountains in the heavens  
no love can fulfil  
like this love that you give

wasted moments come together  
like a ball on a string  
your love take me higher  
realise everything  
take those chains from your heart and soul  
and take those chains from your heart and soul  
take those chains from your heart and soul  
and take those chains from your heart and soul  
yeah like a slow train  
and take those chains from your heart and soul  
yeah like a slow train  
and take those chains from your heart and soul  
yeah like a slow train  
and take those chains from your heart and soul  
and take those chains from your heart and soul  
through the mountains over heavens  
through the mountains over heavens  
leave me high  
leave me looking
