Ooh, na, na, na, na, na, na, na  
(Alarm is gone, babe)  
Ooh, na, na, na, na, na, na, na  
(Alarm is gone, yeah)

I'm tripping in my mind  
She's telling me things I know not, baby  
I'm a loving guy  
Picking it up right now

I'm on a winning streak  
Taking my chips right now, now, honey  
Won't you come on with me?  
I take you where you wanna go

Anywhere you want  
The world is ours, it is my oyster  
Anywhere you want  
Anywhere you wanna go  
New horizons

She got me speaking in tongues  
She got me talking a different language  
She got me speaking in tongues  
She got me speaking a different language

She got me speaking in tongues  
She got me speaking a different language  
Got me speaking in tongues  
She got me speaking a different language

Life, life can be so beautiful  
Life, life can be so wonderful  
Life, life can be so beautiful  
Life, life can be so wonderful  
Yeah, yeah

We're just selfish genes  
Selfish dreams, selfish dreams  
My selfish dreams  
My selfish dreams

I wanna trip all night  
I wanna get your body right next to me now  
I wanna make it right  
I want it real, real slow, will I make it through now?

I wanna trip all night  
I wanna hold you close and get it down now  
I wanna make it right  
'Cause I know that we're free

Lord, give me grace  
(I know that we're free)  
I know that we're free  
Please let my soul free  
Oh, give my soul grace  
Innocent grace

Babe, got what I want  
You're telling me, oh, don't ever stop now  
Right through the clock  
One and two will never stop now

Babe, got what I want  
We're moving in time, we're coming together  
This is the life, the life I live  
This is the life, the life I live  
(This is the life, the life I live )

My, my, my, my, my, my, my, my, my, my baby  
She got me going round and round in circles  
Oh, the woman is my mirror  
She's showing me all the things I've gotta change

Before I reach the gnosis  
The point where everything is divine  
Yeah, The United Nations of Sound  
The United Nations of Love  
The United Nations of Peace

I'm feeling free, I'm feeling free  
I do this for free  
I do this for free  
I do this for free
