"Precious Stone"

life is a book in where we find a plan
used to feel like the walls are closing in
you make descisions that you never thought you could
you've been crying in the night, yeah, yeah, yeah

you, precious stone, washed up, feel alone
gonna clean you up, if you feel like you know the
answers

(i got the keys to your jail, yeah) is this love?
(a little love in the fresh air) overcome
(i got the key to the jail, yeah) is this love?
a little love in the fresh air

you belong to things that you never thought you would
you shot the devil in the night, he haunts ya
don't think about the things you can't never answer
you gotta live, you gotta learn how to love, i said
you, precious stone, washed up, feel alone
gonna clean you up, make you shine, make you clean,
yeah
you, precious stone, washed up, feel alone
gonna clean you up, make you feel like you know the
answer

(i got the keys to the jail, yeah) is this love?
(a little love never fails, yeah) overcome

you're the one

you, precious stone, washed up, feel alone
gonna clean you up, make you shine, make you glow
hey you, precious stone, washed up, feel alone
gonna clean you up, make you shine, take you home
