When you've given all you've got  
And you're feeling overcome  
When your back's against the wall  
There's no one left to call, call me

When your head is so full  
And you feel misunderstood  
And the fear is coming fast  
You think your time has passed  
You say why me, why me?

If you want it, you know I've got it  
Words they just get in the way  
If you want it, all you have got it  
Words, they just get in the way  
Words, they just get in the way  
In the way

When you're feeling like you've lost  
When all your hope is gone  
And the bridge above the river  
Is only the beginning of your fall

If you want it, all you have got it  
Words they just get in the way  
If you want it, all you have got it  
Words, they just get in the way  
Words, they just get in the way

If you want it, all you have got it  
Words they just get in the way  
If you want it, you know I've got it  
Words, they just get in the way

If you want it, all you have got it  
Words, they just get in the way  
If you want it, all you have got it  
Words, they just get in the way

Words, they just get in the way  
Words, they just get in the way

Sing it too me now  
All my life in the way  
ABC all the way  
Since I was a child  
Words, they drive me wild

Words must get in the way  
Words must get in the way
