we, we have this fight within
born through circumstance
XYYYYY me
if you don't look you cant and fail to see

then we fly my love
through the stars above
they'll write out your name when I am alone
they'll map out my way when im coming home

Fly Sure above
born to there are to calm

if you see my love tell that im fine
if you see my love tell that im fine
if you see my love tell that im fine
if you see my love tell that im fine
if you see my love tell that im fine
if you see my love tell that im fine
alright
