I am manYou are magnet
It seems the two can't stay apart
Arrow fliesTo the target
Arrow flies right through the heart

Opposites attractingOpposites attracting
Not exactly
Opposites attracting

Hear the voiceSee the motion
Not a thing in common here
Power plugPower socket
Electric current that pulls them near

Opposites attractingOpposites attracting
Not exactly
Opposites attracting

Have you seen the lightning--
on summer nights that light the sky?
The cause is not so frightening
These are forces at play...

Yin-YangLight and darkness
Sometimes it seems the twain shall meet
Sparks flyHear the thunder
It takes the friction to make the heat

Opposites attractingOpposites attracting
Not exactly
Opposites attracting
