Living, fighting, obsessing  
Just as long as I can share it all with you  
Yesterday, today, tomorrow, come rain, come shine  
Hell and back, the beginning in between till' the end of  
time

[CHORUS]

All that shines turns to rust  
All that stands in time turns to dust

As above, so below  
But you ain't no fool and honey, I'm damn sure that you  
know  
Yesterday, today, tomorrow, come rain, come shine  
Hell and back, the beginning in between till' the end of  
time

All that shines turns to rust  
All that stands in time turns to rust
