Hunt me down, seek me out, bring your best
That's how I want it to be
Full of doubt, full of fear, all's unclear
It's over cuz now I can see
Like a tank, seething strength, crushing all
Pulling you under my treads
Lost some years, lost some days, that's O.K.
I piss on what's in my way

[CHORUS]

Your two-faced abusin'
Mindless confusion
Resolution
(I feel I'm breathing my first breath)
Manipulation
Dyin' salvation
You'll never rest
(You can't kill what's stronger than death)

Looked inside, found myself, it was me
Waitin' there at the well
If you're green, you ain't seen, life's a game
Sometimes it's just hard to tell
Gouging eyes, breakin' bones, eatin' flesh
Puts a smile on my face
Crawlin' through glass, eatin' nails, losin' blood
It's all part of findin' your place

[Chorus]
