When I see you  
On the corner  
My heart just skips a beat  
But I try  
To ignore you  
My eye's can't help but cheat

Chours  
All it took was a little kiss  
Deep into the soul  
Never thought I'd feel like this  
But you give me it all

When you're near me  
In the hall way  
I try not to stare  
But I do  
And you see me dandle  
Standing there

Chours (1x)

But we mustn't  
Let them know  
We share a kiss  
Let them think  
You don't like me  
I want my friend instead

How much longer  
Can we hide  
The love we've known  
Can I tell them  
Tell soon how our love has grown

Chours (1x)
