Verse 1

City heat
Much too high
Work too hard
Start to fly
No more shade
No more beer
Want to get
Away from here
Don't want the day
Don't want the night
Just give me
The rhythm of the night

Chorus

Rhythm of the night
In my ears
Come with me
Leave you fears
Hold my hand
Hold me tight
And we'll see
The rhythm of the night

Verse 2

You're so cool
Defuse me
I'm no fool
I can see
Cold white sheets
By your head
Staying cool
In my bed
Don't want the day
I love the night
Stay with me
In the rhythm of the night
