"Crack Whore"

Please let me introduce myself,
I'm new in this part of town
Though I do not know you
I can tell you're feeling down
I see the emptiness inside your soul,
In your heart you're all alone
My remedy will cheer you up
The joy of getting stoned

Suck dicks for crack - Your worries will be gone
Suck dicks for crack - A whore you will become

You really gotta taste this,
It's ready made for you
Drugs may scare the masses,
But it is candy for the few
Get into the highest spheres,
Live dreams you never dreamt
Your legs you spread and get some more,
I am your only friend

Reject your moral barriers,
Get fucked by the elite
But the only thing that matters
Now is the money you will need

You quit school too early
So your only trade is sex
I'll pimp you to my customers
And provide you with your smack

Do you defy the challenge
I do hope not, you see
At once you got addicted
Now you live your life for me

Suck dicks for crack - Your worries will be gone
Suck dicks for crack - A whore you have become
