Don't say a word, say it all with your eyes
Take away all my pain, everything I despise
Shine your flame through the night
Guide me back to my home
Make it right

Find a door for me to run through
Find a word for me to say

Don't leave me speechless
You leave me breathless
And I'm a hopeless wreck
Everything I am
Shrouded by weakness
Covered in darkness
I don't want to know what's next
Stay with me, that's my only request

Don't hide your fear, I've felt the same thing before
Now I smile every day. Don't have to cry anymore
You gave me wings, you put me in flight
Guide me back to my home
Make it right

Find a way to make me happy
Make me want to breathe today

Don't leave me speechless
You leave me breathless
And I'm a hopeless wreck
Everything I am
Shrouded by weakness
Covered in darkness
I don't want to know what's next
Stay with me, that's my only request

You leave me fearless
Strong as a fortress
As free as the raging sea
Everything I am
You've lifted from darkness

Erased every weakness
I don't want to know what's next

Sing me to sleep
Don't let the night pass us by
All I want is your promise
That you'll be here when I rise
