Once I'm gone, will they listen?  
When my heart stops, will you see?  
All my life, rejected and degraded  
Made into something, I never tried to be

Can't you hear me crying in the night  
Whispering to the moon  
He's the only one that listens anymore  
Don't say I left too soon

I couldn't take it  
No, no  
I couldn't take this

A leap forward, just to fall back  
I look around, just to see where I'm at  
Another break, in my shattered path  
A perfect future, lost in the past  
A sharp turn, on a one way street  
Wherever you go, you'll go without me  
I thought I'd lose, lose everything  
The end of me, was the beginning

As I strike, not stopping till I'm somewhere  
As I bleed, as I die  
With my last breath, I'll whisper I love you  
Then flee into the night

As I'm surrounded, the darkness fading in  
I fight to stay, stay for you  
Too late, made my mistake, but it's exactly what I  
wanted  
To die alone, I'll be fading soon

I couldn't make it,  
No, no  
But I could break them  
Like they broke me

A leap forward, just to fall back  
I look around, just to see where I'm at

Another break, in my shattered path  
A perfect future, lost in the past  
A sharp turn, on a one way street  
Wherever you go, you'll go without me  
I thought I'd lose, lose everything  
The end of me, was the beginning
