You sit on the ground
Wondering why you're not loveable, capable
Your heart beats, you hold the sound

You hide in the dark
Aching for, longing for the pain to fade, not today
You've lost everything, dampened your spark

You think it's okay now to give up
You've done all you can
And you're screaming

I want to break free
Find a way to brighter days
I'm sick of the storm rolling in over everything
Please take me away from tomorrow and yesterday
Give me your hand, I'll take it, I'll take it if you'll
Save me today

You silence your cries
Try to find your way with broken wings, don't you fall
Please don't fall, please don't fall

Slowly, everything is coming undone.
You just want someone to understand
You're screaming

I want to break free
Find a way to brighter days
I'm sick of the storm rolling in over everything
Please take me away from tomorrow and yesterday
Give me your hand, I'll take it, I'll take it if you'll
Save me today
