Listen up earthlings!  
You Know when You're Out at night  
And some lady catches your eyes  
Lets find a better place, A place to hide  
Lets find a place to play where we can lose our minds  
Come on lets suffocate lets make it burn inside

Im gonna fuck you till the end of time (But it's only  
nine)  
Yeah, I know it's nine  
But it's you and me tonight  
We'll be all alone, we'll be all alone

God damn, God damn  
Oh how I love it when you move like this  
God damn, It's Epileptic

It's epileptic blessed by a curse  
So TAKE TAKE a ride on my lovestick  
Oh god it hurts  
I'm reaching out for a glass of water  
To wake myself up  
This is satisfaction, this is torture  
And it will never stop

GO!

God damn, God damn  
Oh how I love it when you move like this  
Got damn, It's Epileptic  
God damn, God damn  
Oh how I love it when you move like this  
God damn, It's Epileptic

God Damn Girl
