There we met and there we parted  
By the lovely river Seine  
Two young lovers broken hearted  
For we knew we'd loved in vain  
And though years may go  
Some day I know  
She'll come to Paris again  
And I'll find her where I lost her  
By the lovely river Seine

Please format in same as original for the singer to be able to follow it with the music as best you can. Thanks so much. This is for my 90 year old father who wants to learn this in French to sing to an old dying friend who spent many years in France during WWII.
