

## Richard Harris "Bee In The Bottle"

Visit "[Bee In The Bottle](#)" on MotoLyrics.com

The bee in the bottle is breaking his head  
I caught him today I'm going to keep him 'til he's dead  
No one here is watching his life  
The sting is in the dying  
Baby bee is looking at me  
There's no air in the jar and he just can't breathe  
He's got no strength now to stand on his feet  
The sting is in the dying

This is all I ever needed and it's my line  
This is all I ever needed and it's my line  
To the actor in the corner this is my line

Nairobi told me and I kept it in my head  
Nairobi called me and I left here  
In the dead of the night  
We have reason to believe  
You've caught our only majesty  
We would like for you to set him free  
And fly away

This is all I ever needed and it's my line  
This is all I ever needed and it's my line  
To the actor in the corner this is my line

The bee in the bottle is shaking his head  
I'm sorry for the times you thought I was dead  
I've got no time now for suffering defeat  
The sting is in the dying

We could all see in but he couldn't see out  
The bottle is in danger he's filling it with doubt  
It's only time before I make you mine  
The sting is in the dying

This is all I ever needed and it's my line  
This is all I ever needed and it's my line  
To the actor in the corner this is my line
