Search myself and I believe  
She makes it better for me she makes it better for me  
I come with nothing but I'm one thing that she loves I  
come with nothing but I'm one thing that she loves  
My heart and head had no choice my heart and head  
had no choice  
With a smile and voice with a smile and voice  
That got me thinking she's the one I'm dreaming of  
thinking that got me she's the one I'm dreaming of  
How many signs can a life ever throw at you how many  
signs a life can ever throw at you  
It's no disguise that I'm dying to get you to it's in  
disguise that I'm dying to get you to

Chorus:

Let me hear, let me hear the call let me hear, hear me  
let the call  
Can ya hear, can ya hear it all can ya hear, can ya hear  
it all  
Love only knows how it goes only love knows how it  
goes  
When you hear the sound when you hear the sound  
Let me hear, let me hear the call let me hear, hear me  
let the call  
Can ya hear, can ya hear it all can ya hear, can ya hear  
it all  
Love say it loud love say it loud  
Shout it out shout it out  
When you come around when you come around  
I can't believe it I believe it cannot  
A new day has started for me a new day has started for  
me

Look don't leap don't they say do not do not look leap  
they say  
I'm not thinking that way I'm not thinking that way  
I want to feel it from head down to my feet I want to  
feel it from head down to my feet  
Hold my hand we're jumpin hold my hand we're jumpin  
It feels so good giving in it feels so good in giving  
If we get lost in love how lucky, aint life sweet if we get  
lost in love how lucky, aint sweet life

Now is the time, time to find how it's gonna be now is  
the time, time to find how it's gonna be  
We've gotta go where we know there is certainty we've  
gotta go where we know there is certainty

Chorus:

Let me hear, let me hear the call let me hear, hear me  
let the call  
Can ya hear, can ya hear it all can ya hear, can ya hear  
it all  
Love only knows how it goes only love knows how it  
goes  
When you hear the sound when you hear the sound  
Let me hear, let me hear the call let me hear, hear me  
let the call  
Can ya hear, can ya hear it all can ya hear, can ya hear  
it all  
Love say it loud love say it loud  
Shout it out shout it out  
When you come around when you come around  
I can't believe it I believe it cannot  
A new day has started for me a new day has started for  
me

Bridge

I think she's gonna say it I think she's gonna say it  
From a whisper I can hear it from a whisper I can hear it  
When we're closer and closer when we're closer and  
closer  
Lying down in flowers lying down in flowers  
Playin mums and dads for hours playin mums and  
hours for dads  
Rollin over in clover rollin over in clover

Another

I hold a light for ya I hold the light for ya  
I'll keep it bright till the end I'll keep it bright till the end
