Hot on your trail blood is red
Get on your high horse out of here
If they catch me I am dead
Get on your high horse out of here

We said it all
We said it all
Hold on for me
Hold on for me

We said it all
We said it all
Hold on for me
Hold on for me

You don't settle
You don't pay
You live a lot like
That's no good for me

Hard time taking what you get
You've got to lie low
Follow your moon
That's all I ever did

We said it all
We said it all
Hold on for me
Hold on for me

We said it all
We said it all
Hold on for me
Hold on for me
