

Richard Harris "What If"

Visit "[What If](#)" on MotoLyrics.com

If I could meet myself as a boy if I could meet myself
as a boy
I would tell him be careful son I would tell him be
careful son
Show the path to take and those avoid show the path to
take those and avoid
And with faith I would send him on with faith and I
would send him on

Chorus:
What if what if
Could it be could it be
What if what if
Should it be it should be
What if what if
What would I be what I would be

If I took the hand she said she gave if I took the hand
she said she gave
Would it be any better now it would be any better now
Would the friendship that we made would the
friendship that we made
Be the love that we never found be the love that we
never found

Chorus:
What if what if
Could it be could it be
What if what if
Should it be it should be

Bridge.

Can we leave with no regrets can we leave with no
regrets
Say the word and I'll repent say the word and I'll repent
On the day I have to go on the day I have to go
I'll be sure to let you know I'll be sure to let you know
