[INTRO]

It's okay... It's okay, girl you can go
It's okay... It's okay, girl you can go

Time's up, you ready to go?
You really wanna stay, but you know it wont feel right
The flashing lights the moving stars
Is where you wanna be in the middle of the spot light

Girl you say you wanna be with me
But I know it's just plain to see
That you want it more than anything
Baby why you got me wondering?

[REFRAIN]

Even though that you should be with me
I know that in the end we will be together
Kahit pa (even though) it hurts to think
That you will not return to make things better
But I will sit here patiently
I know that I will see you in my dreams
I promise I will never let go... ohh

[CHORUS]

It's okay, do what you like
I know in the end you'll be just fine
Oh it's okay, oh it's alright
I know in the end you will be by my side
Girl you can go

[2ND VERSE]

It's been about a couple months now
Got me wondering what's happening
I call on my voice mail
Just to hear your voice in sane messages, yeah
Cause I missing you, I don't really know what to do
I saw our faith in the both of us

Girl I'll keep on holding on

[Filipino]

Ako'y sayo ito'y totoo wala ng iba ikaw at ako
Wala na sa isip at panaginip pag nakikita ko'y sasabihin
ko

[REFRAIN]

Even though you should be with me
I know that in the end we will be together
Kahit pa (even though) it hurts to think
That you will not return to make things better
But I will sit here patiently
I know that I will see you in my dreams
I promise I will never let go... ohh

[CHORUS]

It's okay, do what you like
I know in the end you'll be just fine
Oh it's okay, oh it's alright
I know in the end you will be by my side
Girl you can go

[BRIDGE]

I'll always be here just waiting for you
I put my heart on hold
There's nothing that I wouldn't do... (for you)
It's I... end of time so promise
That you'll never let go

[CHORUS]

It's okay, do what you like
I know in the end you'll be just fine
Oh it's okay, oh it's alright
I know in the end you will be by my side

It's okay, do what you like
I know in the end you'll be just fine
Oh it's okay, oh it's alright
I know in the end you will be by my side
Girl you can go.
