Lately I've been thinking about the chosen words you
said
Where nothing seems to spin outside the space that's
in your head
You are so dark and the space in your heart is so black
You think you look forward but really you are looking
back

Time has made a change

Darkness comes around me every time I hear your
name
You tiptoe so politely but to me it's just the same
You are so dark and the space in your heart is so black
You think you look forward but really you are looking
back

Time has made a change

Your young and you should make light of it
There's no time cos you could get lost in it

Time has changed

Time, time, time has made a change
Has made a change
Time has made a change
