There's light in the lobby  
There's music playing  
I'm glad you are with me  
I'm glad that you stayed

I feel that I know you  
So real I can show you  
My wish this will go on forever

There's light in the lobby  
Soft music playing and  
It's right that you're with me  
I'm glad you remained

I'm glad that I kept you  
So glad that I met you  
I wish this could go on forever

I wish we were sleeping  
My arms around you keeping  
This moment from leaving forever

There's nobody left now  
The moment's ours to keep  
The music has stopped now  
I wish we could sleep

Together our breathing  
Our dreams never leaving  
This moment from leaving forever
