My heart beats  
With the rhythm of a drum  
It's been so long  
Since love tangled my spine  
Brought me back home  
Where I don't sleep alone  
Where we breath as one  
On our sides  
This could be  
A miracle  
This should be  
It all

We're in freefall  
We're in freefall

This just shows  
It never goes  
As we rush towards  
This waterfall  
We're sinking further  
We're plunging deeper  
It's beautiful

We're in freefall  
We're in freefall

Take your time
