Love come back my way again.
Love, come back and stay again.
Cause without you there's no dream
And my life is like a stream that won't run free.
Love, come back to me again.
And love, make my soul free again.
Cause without you I'll grow old, living out there in the
cold.
And people will pass me by look at me see through me

Verse 2

Love, come back my way again
Love, brighten my day again
Cause without you I'm alone, and my heart ain't got a
home.
And I feed on self pity; I live in a city of fear.
Love, come back to me again.
Love, let my eyes see again,
All the joy that I once knew, being with you close to you.
Being as free as the wind never feared what tomorrow
would bring
Love, come back my way
Oh, Love
Come back my way.
