A SATISFIED MAN

You won't ever see me running around
There's no point in lookin' for what I've already found
When it comes to lovin' she's the one
There's nothing worth doing' that she ain't already
done

My good lovin' woman understands
There's no way of loosing a satisfied man

I wouldn't take chances
Try something new
'Cause her kind of loving is much too good to loose
I never will leave her lovin' arms
Her love is like a fever,
There's no other womans

My good lovin' woman understands
There's no way of loosing a satisfied man
My good lovin' woman understands
There's no way of loosing a satisfied man
