Whoa now oh oh now now
Whoa now oh oh now
2x

My oh my it's about that time
I get myself outta bed
It's been 2 months, 3 weeks, 6 days (6 days)
Since when you said
Baby you're gaining little to much weight
And you said
Baby you bore me no, no I cannot stay (HU)

Tryin to cope
My heart had a hangover
Just like I'd been drinkin
Slurin my word and flipin my verbs
I did know what to think

Like should I wish you the best
And just sit home and feel sad
Or should I plot my revenge
And just find me something betta

Chorus
Thought I would never sleep again
And I would never love again
Thought I would never feel again
You knocked me over (like I been drinkin)

Thought I would never sleep again
And I would never love again
Thought I would never feel again
You knocked me over

But tonight I'll get sober (so so sober) 3x
I can't believe that it's over
I'm so relived that it's over, it's over

Whoa now oh oh now now
Whoa now oh oh now
2x

Heading downtown with my best girlfriend
Shoutin down the place
No more drunken lonely heart
It's 3 months to the day
When you said
You didn't want me
But baby that's okay
I hope your sad somewhere lonely
Just know I'm a okay (HU)

Uh huh I do it like this
I get sober by shakin my hips
So I Uh huh and I'm feelin so fierce
My, my, my baby you'll regret this

Thought I would never sleep again
And I would never love again
Thought I would never feel again
You knocked me over (like I been drinkin)

Thought I would never sleep again
And I would never love again
Thought I would never feel again
You knocked me over

But tonight I'll get sober (so so sober) 3x
I can't believe that it's over
I'm so relived that it's over, it's over

Whoa now oh oh now now
Whoa now oh oh now
2x
