Put cha hands up top to the music
Just wave, wave, wave
Just wave, wave, wave

Hey pretty lady
What's your name?
Got a pretty little body

Do ya have some time
For you to come play?
And baby I know
The perfect place

[Lyndriette:]

Hold up, wait, little daddy
Do you think that that's the way to get at me?
There ain't no need to go on and on

[Chris Brown:]

What do you mean, I'm goin' on and on?

[Lyndriette:]

Boy I know that you're tryna get in my jeans
Be a cold day in hell is not happening

[Chris Brown:]

But I
I just came for love
Girl that ain't me, hold up
aint tryin to beg for none
Girl I know other guys are not quite like me
Don't know how to do good and treat you right like me
But I will
