It only hurts when I think of you
So it hurts all the time
It only hurts when I dream of you
So it hurts day & night

I couldn't wait to be with you
So I did what I needed to
Now I can't believe that we are thru
I will never see you again

It really hurt what I said to you
But I had to get you out of my mind
It really hurt what I did to you
But I had to get you out of my life
(chorus) Na na na na I'll Never Open My
Heart Again
Na na na na I'll Never Open My Heart Again

It really hurt when I last saw you
You didn't want me to come by
It really hurt when I looked at you
I could see the pain I'd caused in your eye

It only hurts when I think of you
So it hurts all the time
