Wake up in the morning, you're still here
But are you home for one thing, you weren't supposed
to love me
There's something in the air we need to clear
Expected you'd be gone now, I need some time alone
now

I thought we'd just have sex, you'll leave and smoke my
cigarette
You play things cold cause I think you're cold
Seems you got your own intentions, maybe I forgot to
mention
There's no use cause making love takes two

I want you to kiss me
I want you to touch me
I didn't want you to love me
Cause there's no fun to hit you with my kiss and run
Oh darling
I want you to touch me
I didn't want you to love me
Cause there's no fun to hit you with my kiss and run

As your hands unstrap my thighs
Just dim the lights, don't turn them off
Don't need no clothes, just take them off, ooh baby,
ooh
I won't let you in, get through my heart
Can't let you get inside my heart

I thought we'd just have sex, you'll leave and smoke my
cigarette
You play things cold cause I think you're cold
Seems you got your own intentions, maybe I forgot to
mention
There's no use cause making love takes two

I want you to kiss me
I want you to touch me
I didn't want you to love me
Cause there's no fun to hit you with my kiss and run

Oh darling
I want you to touch me
I didn't want you to love me
Cause there's no fun to hit you with my kiss and run

Kiss and run
Kiss and run
Kiss and run

Kiss and run
Kiss and run
Kiss and run

I thought we'd just have sex, you'll leave and smoke my
cigarette
You play things cold cause I think you're cold
Seems you got your own intentions, maybe I forgot to
mention
There's no use cause making love takes two

I want you to kiss me
I want you to touch me
Didn't want you to love me
Cause there's no fun to hit you with my kiss and run
Oh darling
