It's late night and we're asleep, my love and I
Had this little fight now it's sugarplums all sweet and
groovy
Reach out my hand and find that I am all alone
Just can't understand where's my baby, god I must be
dreamin'

There by the light a little note and it's for me saying
that you're right, but I shouldn't ever try to find her
The rest stay clear, too many tears
Can't find the words, they ain't even here cuz I'm
dreaming god I must be dreamin'
Don't make no sense can't think of life without sweet
things
Just don't make no sense, and I'm dreaming god I must
be dreamin'
It's late at night and we're asleep, sweet babe and I
Had this little fight now its sugarplums all sweet and
groovy all sweet and groovy
