### "Stand A Chance"

Visit "[Stand A Chance](#)" on [MotoLyrics.com](http://MotoLyrics.com)

Feat. J Reno

Who am I? who am I?  
Jakob22 can finish, you finish  
You all diminish, you diminish, you menace...  
swimming pool  
You pitiful pirate... go underground is the...  
Jakob's the original, and you the... rhyme that is  
minimal  
The fame... lyrical, evil but still he's spiritual  
Fiction on the physical invincible he's criminal  
But... he's cynical,  
Not that... it's miserable, no miracles  
Like lyrical scriptures...  
I see visions, my mind, speaks wisdom  
... listen to prison... with no vision, I'm blind  
I beat you all combined, for killing I was designed  
Behind these... within my mind I'm confined  
Face the fact, you could die, break the bridge, release  
the tide  
So it's unwise... I will take your life

The story... so drop it out...  
Cause all the streets... release the beast on y'all  
... we keep the feast on y'all, drop the beats on y'all  
You know many don't stand a chance at all  
Cause all the streets... release the beast on y'all  
Cause you don't really wanna stand and...

It's... right, when I look in the mirror  
My reflection resemble... of a demon  
So don't come near... this poison injected in your  
jugular vein  
Fucking insane... divine torture,... monster  
Feel like I belong inside of a room...  
Live a life where I can't harm a human being  
I'm hardly a human being...  
You could barely be breathing  
This is some next level shit  
Homey fuck what you believe in  
I'ma keep on doing underground shit

Till the stone is now... upon my grave  
And I'll still be underground bitch  
Forever rapping, the tv and radio  
Irrelevant, started in 98...  
Cause I don't know... like the rest of the zombies

The story... so drop it out...  
Cause all the streets... release the beast on y'all  
... we keep the feast on y'all, drop the beats on y'all  
You know many don't stand a chance at all  
Cause all the streets... release the beast on y'all  
Cause you don't really wanna stand and... X 2
