"Footprints On The Moon"

Visit "[Footprints On The Moon](#)" on MotoLyrics.com

Dare to dream
Dare to think you could be anything
Dare to always give your very best
Dare to be different from all the rest

Seize the day
Dare to climb the mountains in your way
Make the most of every chance you take
Look to the heavens, take a leap of faith

Fly
Higher than you ever had before
Spread your wings and soar
Just fly
And as long as you set your mind to it
There's nothing you can't do
Don't believe the sky's the limit
When there are footprints on the moon

Love
You can really never love enough
Stay close to your family and your friends
Cause that's what really matters
In the end

Fly
Higher than you ever had before
Spread your wings and soar
Just fly
And as long as you set your mind to it
There's nothing you can't do
Don't believe the sky's the limit
When there are footprints on the moon

Fly
And as long as you set your mind to it
There's nothing you can't do
Don't believe the sky's the limit
When there are footprints on the moon
